Safety First in Hybrid Learning

February 1, 2021

In order to help everyone better prepare for Hybrid Learning at Lincoln, we have created this *Parent Information Guide* to help parents prepare their children for school and to better support parents when they have a question or concern for their child.

Health and Safety

If your child is ill and you are uncertain if they have Covid or not but they have symptoms:

- Get your child tested
 - Locate nearby facilities that provide this service
- Keep your child at home until test results are known.
- Your child should be attending remote learning if they are well enough to do so.

Covid Common Symptoms	Other Symptoms
Fever	Chills
Dry Cough	Tiredness
Shortness of breath	Aches and Pains
Loss of Smell or Taste	Nasal
	Runny nose
	Sore throat
	Diarrhea, Nausea or vomiting

If your child tests positive for Covid - self report and isolate:

- Please self-report to cps.edu/covidtestresults
- Notify Lincoln main office (773-534-5720).
- Isolate at home for **10 calendar days** from a positive test date.
- Must be fever free without the use of medications for **24 hours**.
- After these requirements are completed your child may return to school.
- If your child feels well enough, have them attend their classes remotely.

If your child was in direct contact (closer than 6 feet and for 15 minutes or more) with someone who tested positive for Covid - **quarantine**:

- Stay home for **14 days** from the last time your child was in direct contact with the positive person.
- Your child should be **attending school remotely** during the 14 day period.
- Notify the school of your child's need to learn Remotely for the 14 days (773-534-5720).
- If any symptom occurs, during the 14 day period, your child should be tested for Covid and a doctor's note is required before your child may return to in person learning.

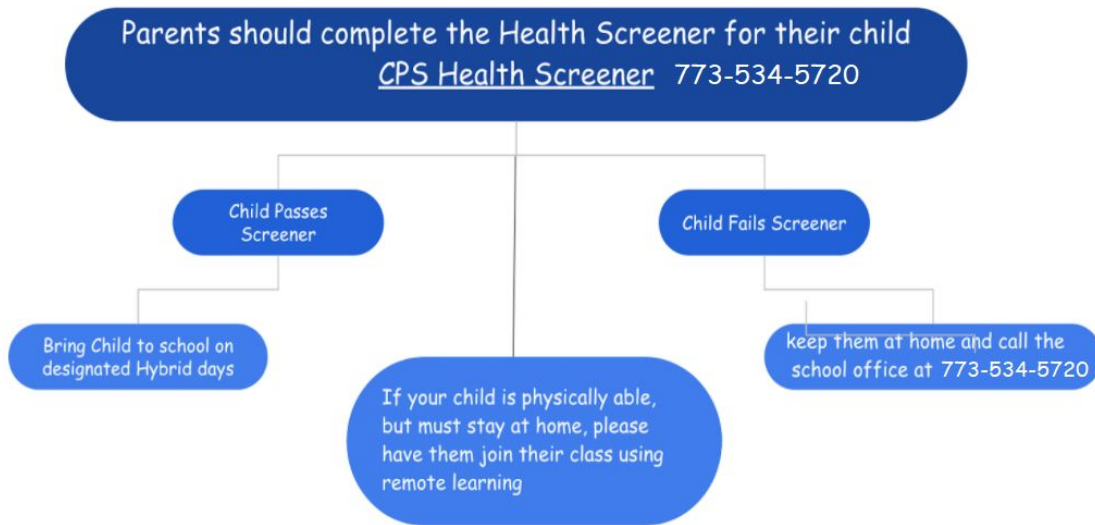

Before Coming to School (Daily)

- Parents should complete the Health Screener for their child - [CPS Health Screener](#)

(Open Camera on phone, point at code above, website for screener will open)

Health Screener Flowchart

What your child can do to stay safe and healthy while at school

Do the Five:

- Wash their hands
- Wear a face mask
- Cough into their elbow
- Keep socially distanced (6 feet apart)
- If sick - stay at home and attend through remote learning if possible. If not, please call the main office to inform us of your child's absence.
